

## Chapter 4 Project – My Treasure ~Whose speech is it?~

class no name

Hello, everyone.

I want to show you my treasure. These are my notebooks for club activities.

I started practicing baseball when I was 8. When I was a high school student, I practiced it from morning to night every day. It was very hard. I kept writing notes about practicing in my notebooks.

Every time I look at them, I remember those hard days. If I have a difficulty now, I can get over it by seeing that. So these books are my treasure.

Thank you.

Hi, everyone.

Today, I'm going to talk about my treasure. Do you know this manga? Yes, it's *One Piece*! These manga are my treasure.

When I was an elementary school student, I watched *One Piece* on TV. I loved watching it. So I bought 60 volumes when I was a university student. And I still buy new volumes when they come out.

*One Piece* has a lot of interesting and surprising stories. I especially love the story in volume 50. When the main character Luffy was injured, his friend Zoro took all his damage. I think Zoro is cool, and I want to be a cool person like him.

I'm looking forward to the next volume. If you have a chance, please read it.

Thank you.

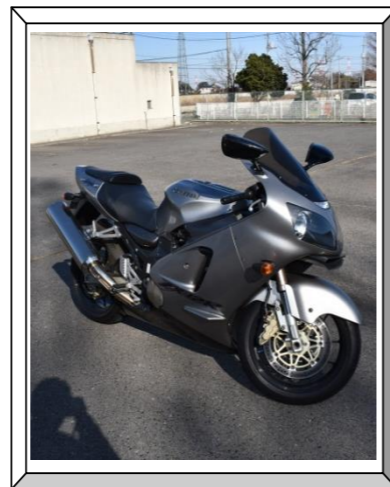

Hello, class.

Today, I'm going to show you my treasure. It is a ZX-12R motorcycle.

I bought it 2 years ago. When I was a child, I wanted to ride a motorcycle. I think riding a motorcycle is dangerous. But it always feels great to ride, especially in spring. I also like driving my motorcycle in the mountains and along the beach.

My wife rides a motorcycle, too. I hope we can take a long road trip on our motorcycles. I want to ride it as long as possible.

Thank you.

Hello, everyone.

I want to tell you about my treasure. My treasure is this letter from my granddaughter. She gave it to me last summer. She was only four years old. She started learning how to write letters. She is still a small girl, so there are some mistakes. But she writes slowly and carefully. I am surprised to see how well young children can memorize.

I think family is really important. This letter makes me happy because I feel close to them when I read it. I love my granddaughter and I will keep this letter forever.

Thank you.
